Header + Introduction

dediCATE

save a life

Welcome to Our Store — Where Every Purchase Makes a Difference

Here, shopping becomes more than just buying a product. Every item you choose directly **supports a meaningful cause**, with all profits donated to help create **positive change**.

In the header there is a logo, a button that takes you to the cart and if you press again it should hide the cart. Used <header> and <section>

Basic Scratching Post

Price: **€10.49**

Add to Cart

Penelope Cat Tree

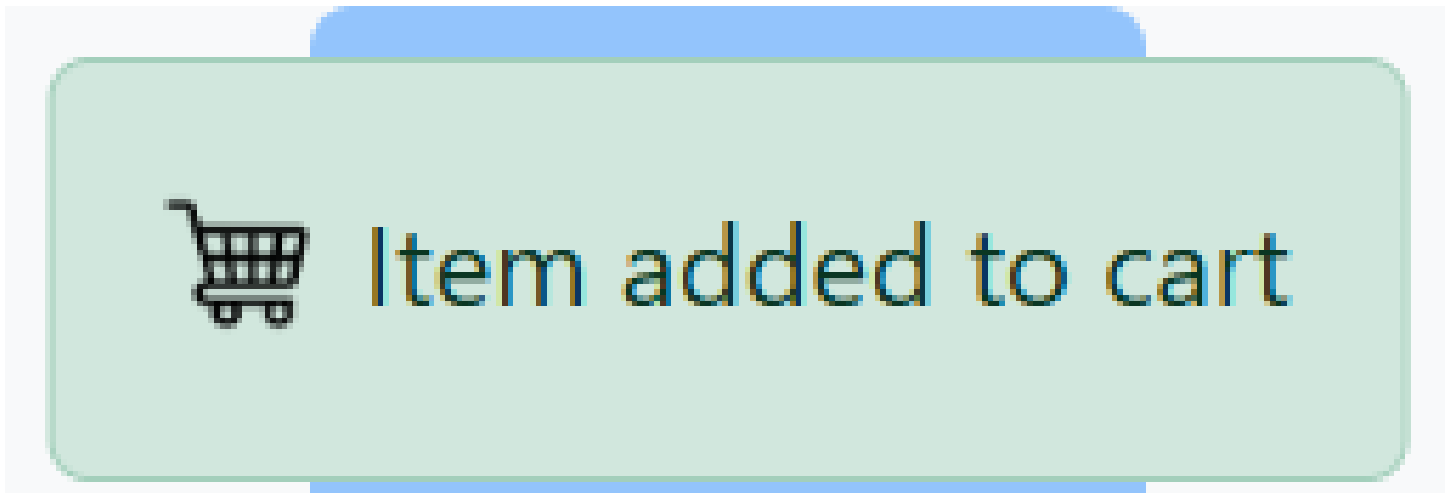

Price: **€52.99**

Add to Cart

See more

For the products section i used a js function that takes information from my dictionary and displays every product as a bootstrap card. Also used bootstrap

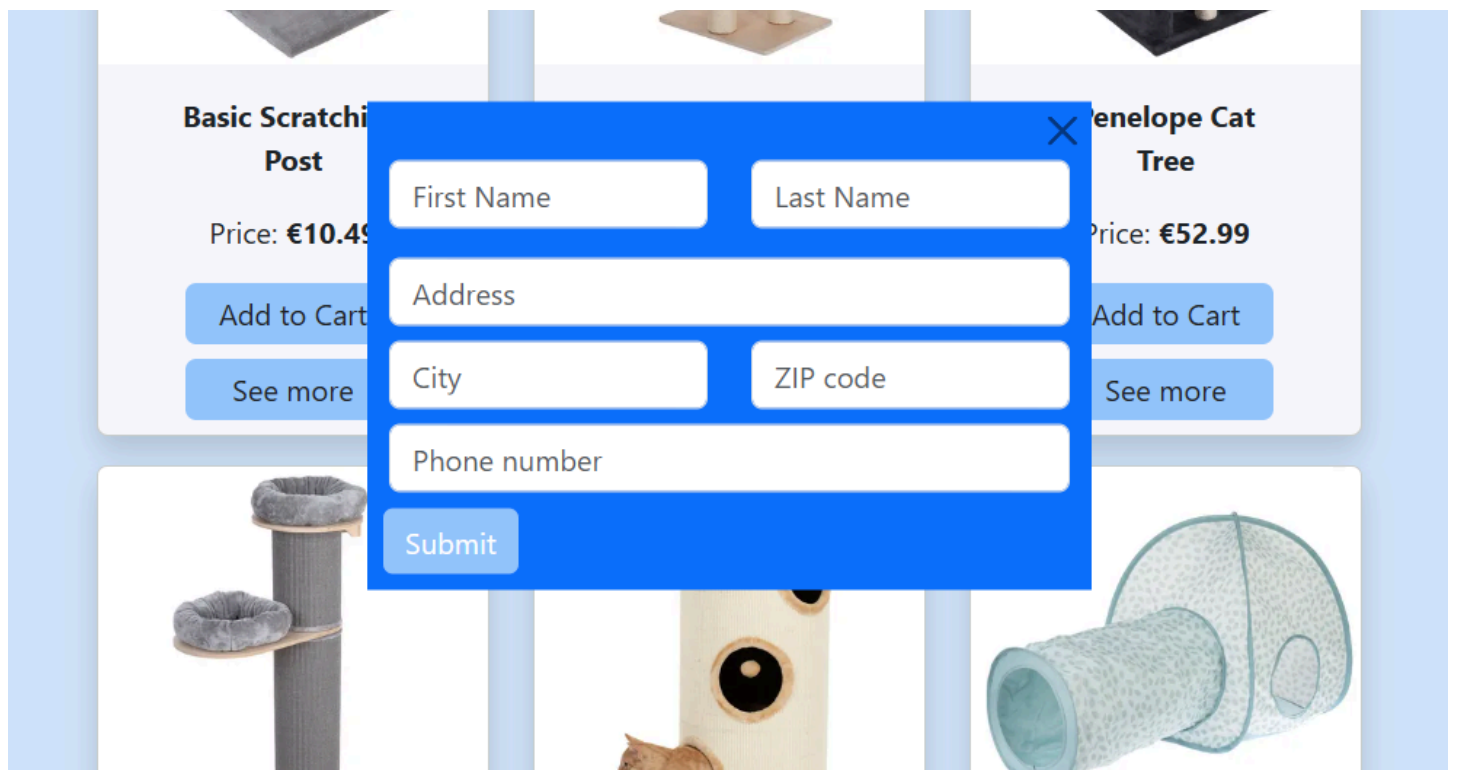

grid system to arrange the products. Used bootstrap buttons (Add to cart) that adds the item to card, (See more) button that displays extra information.

Every time the add to cart button is pressed a notification appears. Used bootstrap alert element.

Item	Quantity	Price	Subtotal	
Paradise Scratching Tree	- 1 +	125.29	125.29 €	×
Scratching post with beds	- 1 +	99.99	99.99 €	×
Nature Tunnel Tent	- 3 +	46.29	138.87 €	×
Cart Total:	364.15 €			Checkout

After pressing the cart button, the cart is displayed. Here I used a bootstrap table and a select quantity system that when pressing on -,+ js adds the item price to the subtotal and total. Also used a bootstrap close button to remove an item from the cart. In the bottom right there is a checkout button that closes the cart and opens the checkout page.

For the checkout page I used bootstrap forms and the submit button in the bottom left executes js functions that take the information from the forms and display it in the confirmation.

CONFIRMATION

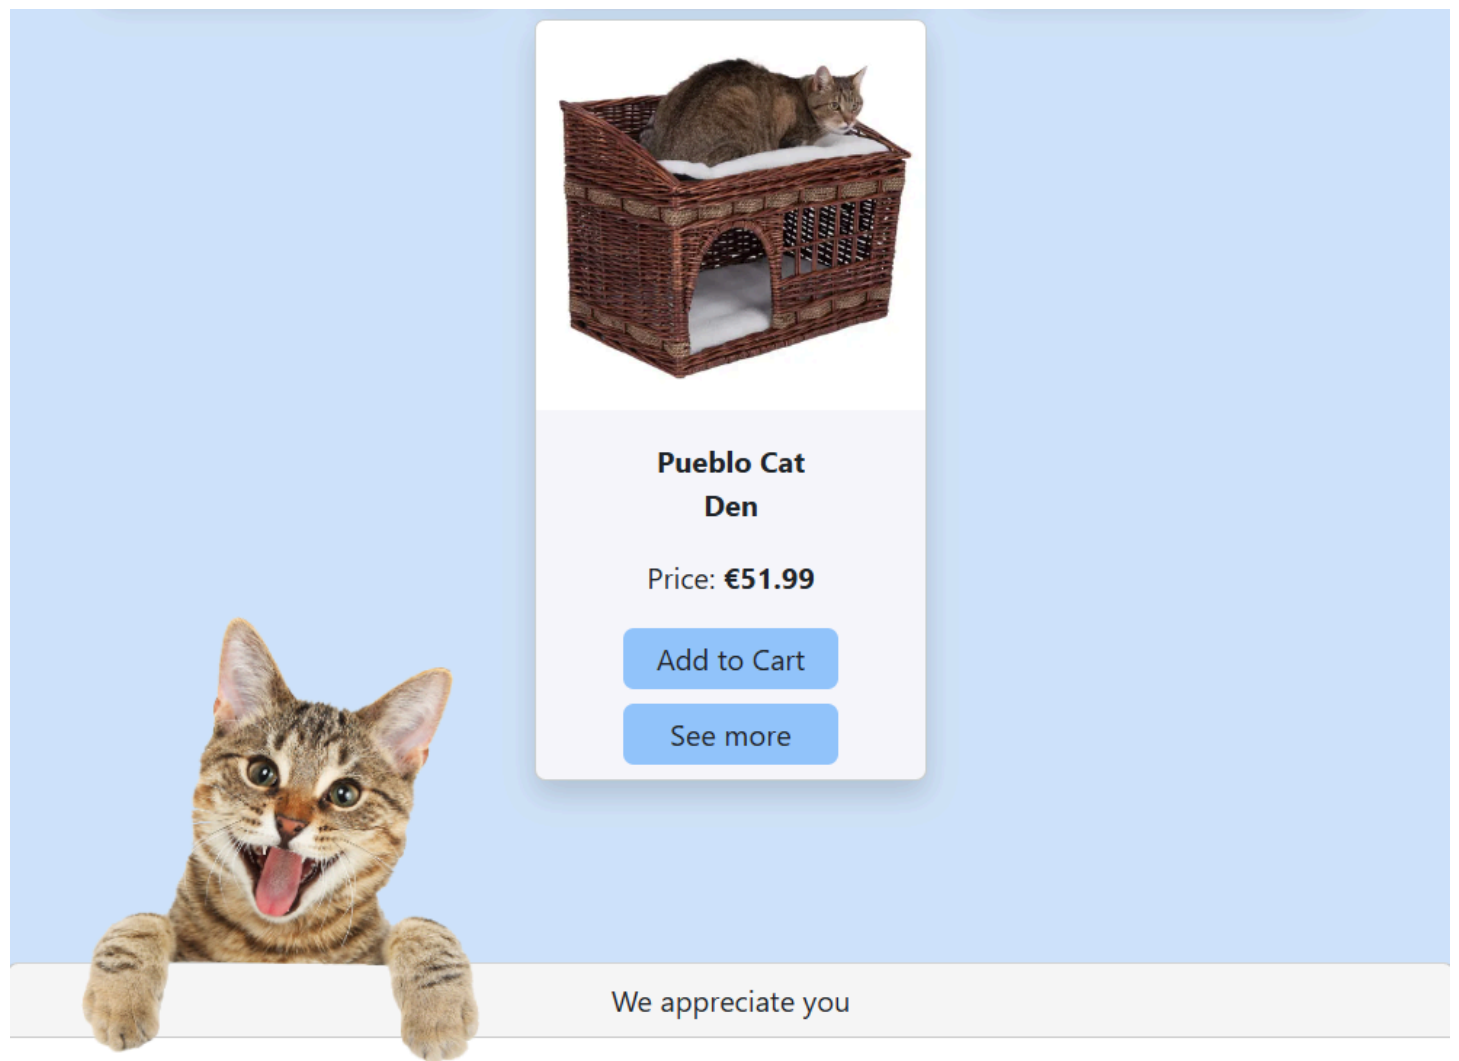

Your First Name: Bogdan	Your Last Name: Calancea	Address: Kopalgasse
City: Viena	Zip: 1110	Phone: 12345678

Total:
278.27 €

Because your total is bigger than 200 you get a 20% discount. Your new price is 222.62€

RestartSubmit

Here the information placed in the checkout is shown, the total is shown and also if the total price is bigger than 200 then a discount is applied. The buttons reset the page. Here I also used bootstrap grid system and js functions to get the inputs and make calculations.

Together, we can transform small actions into **big impact.**

Activate Windows

Go to Settings to activate Windows.

Also I created a custom footer, but I wasn't sure what to put in it.
